The De' Longhi Group increases its stake to 88% in the professional division: new strategic perspectives for “La Marzocco, Eversys & Co.”, which accounts for about 25% of total profits

De' Longhi Group has increased its stake in the professional division, underscoring its strategic value. The transaction strengthens the Group's leadership in the coffee sector, spanning both professional and household coffee markets, while unlocking significant opportunities for medium-term strategic development

Treviso – October, 15th 2026. The De' Longhi Group has signed an agreement to acquire the entire shareholding held by DLI Limited in the professional division. Following this transaction, the Group has increased its controlling stake to 88.02% of the share capital, up from 61.56%. The remaining 11.98% stake will continue to be held by the current minority shareholders.

As of June 30, 2026, the professional division achieved last twelve months (LTM) revenues of € 569 million, up 38%, with an adjusted¹ EBITDA of € 172 million, equal to a 30.2% margin. Reflecting these robust results and future growth prospects, the division was valued at an Enterprise Value of €2,360 million and an Equity Value of €2,501 million. From the announcement of the business combination between La Marzocco and Eversys in late December 2023 through June 30, 2026, the segment's revenue grew by over 50% and adjusted EBITDA doubled, driving a substantial asset revaluation from its €1,283 million of Equity Value at year-end 2023.

"Thanks to the strategic investment in the business combination between La Marzocco and Eversys, together with the division's excellent results over recent years—with projected revenue exceeding €600 million by the end of 2026—we have strengthened our market leadership in professional coffee sector, creating an additional growth engine for the Group," stated Fabio de' Longhi, CEO of the De' Longhi Group. "Increasing our stake in 'La Marzocco, Eversys & Co.' will allow us to further increase the professional division's contribution to the Group's net profit, while simplifying the current ownership structure. At the same time, it consolidates our growth strategy in the coffee and reinforces the Group's presence in the professional division, a market-leading and rapidly expanding business. Furthermore, the Group will maintain significant financial flexibility to support both potential external expansion and a robust shareholder remuneration policy, in line with our track record in recent years."

Specifically, following the approval of the transaction by the Board of Directors of De' Longhi S.p.A. today, the share purchase agreement was signed by DLI Limited, as seller, and by the subsidiary De Longhi Benelux II S.à r.l., as buyer.

The transaction follows negotiations in which the De' Longhi Group submitted several non-binding expressions of interest to all shareholders of the professional division, on identical terms and conditions. As

¹ adjusted" means before non recurring income / expenses and share-based incentive plan

a result of the negotiations, DLI Limited accepted the aforementioned non-binding expression of interest, while 11.98% of the professional division's share capital will continue to be held by minority shareholders who did not participate in the transaction. These shareholders retain their existing rights, in particular, the exit rights agreed upon in the prior agreements signed on December 21, 2023, regarding the business combination between Eversys and La Marzocco (as further detailed in the press release dated December 21, 2023—available in the “Investor Relations” section of the website www.delonghigroup.com, to which reference is made for further information); these rights include the option for such shareholders to request an Initial Public Offering (IPO) of the professional division's shares starting from March 2028, or a demerger via the distribution of the professional division's shares starting from March 2029.

The total cash consideration for the purchase of the equity interest amounts to approximately € 662.5 million, payable in a single installment on the closing date of the transaction, scheduled for October 16th 2026.

The transaction will be funded through a combination of the De' Longhi Group's own cash reserves—whose Net Financial Position as of June 30, 2026 was positive at € 687 million—and dedicated debt facilities, taking the opportunity to optimize the debt profile and ensure greater financial flexibility over the medium term.
