1. PREAMBLE

These Policies are adopted by the Company in compliance with the provisions of law and regulations concerning sustainability and the provisions of the Corporate Governance Code to which the Company adheres.

In particular, these Policies are adopted in application of: (i) the provision of Article 123-bis(2)(d-bis) of the Consolidated Law on Finance pursuant to which companies that issue securities are required to provide in their report on corporate governance and shareholding structure a “*description of the diversity policies, applied in relation to the composition of the administration and control bodies, regarding aspects such as age, gender composition, disabilities or the training and career path, as well as a description of objectives, the implementation methods and the results of such policies (...)*”; and (ii) the principles and recommendations set forth in Article 2 of the Corporate Governance Code concerning the “*Composition of the corporate bodies*” particularly as regards diversity criteria, including gender.

As already indicated in Directive 2014/95/EU, a diversity of expertise and perspectives among the members of the Corporate Bodies: (i) promotes a good understanding of the organisation and the activities of an issuer, guaranteeing, for example, the effective engagement of Directors in the preparation of strategies that support the Group’s strategic operating plan; (ii) enables the members of the Corporate Bodies to constructively assess the decisions of management and to be more open to innovative ideas, thus countering the risk of group thinking by these members; (iii) thus contributes to the effective monitoring of management activity and efficient corporate governance.

The Company applies diversity criteria, including gender diversity, in the composition of the Board of Directors and of the Board of Statutory Auditors, in compliance with the priority objective of ensuring that its members have the appropriate expertise and professionalism, also taking into account the provisions of: (i) the Articles of Association in compliance with the laws and regulations in force on the subject of gender balance in the composition of the Corporate Bodies, and (ii) Recommendation No. 8 of the Corporate Governance Code which requires that the Company define diversity criteria for the

composition of the Corporate Bodies and identify the most suitable tool for implementing them.

2. SCOPE OF APPLICATION, RECIPIENTS AND PURPOSE

These Policies refer to the composition of the Board of Directors and the Board of Statutory Auditors of De' Longhi.

They are addressed, in particular, to those involved in the process of selecting and appointing Directors and Statutory Auditors and therefore:

- to Shareholders who, in accordance with the law and the Articles of Association, intend to submit slates of candidates to appoint to the Board of Directors and/or the Board of Statutory Auditors;
- to the Annual General Meeting called to appoint the Board of Directors and/or the Board of Statutory Auditors;

- to the Board of Directors and the Board of Statutory Auditors, should they deem it necessary to submit their recommendations and guidelines on the optimal composition of the corporate bodies to the Shareholders.

These Policies define and formalise the criteria and implementing methods through which De' Longhi intends to ensure an appropriate level of diversity among the members of the Corporate Bodies, with the aim of guaranteeing the optimum composition of such bodies, in order to:

- enrich the discussion - a distinctive condition of reasoned and informed decision-making - thanks to the diverse expertise of its members which allow them to make

decisions with the contribution of multiple qualified and diverse points of view able to examine the issues under discussion from different perspectives;

- allow a better understanding of the needs and demands of stakeholders;
- reduce the risk of group thinking in the bodies themselves;
- make the decision-making process more effective and more in-depth;
- enable the members of the Corporate Bodies: (i) as regards the Directors, to discuss management decisions constructively, and (ii) as regards the Auditors, to be able to exercise their oversight duties in the most effective way.

3. GENERAL PRINCIPLES

The Company is aware of the fact that diversity and a sense of belonging are two key elements in the corporate culture of a multinational group such as the De' Longhi Group. In particular, enhancing diversities, as a key aspect for the pursuit of Sustainable Success, represents a reference paradigm for both the employees of the De' Longhi Group and the members of the Company's Board of Directors and Board of Statutory Auditors.

The Board of Directors and the Board of Statutory Auditors, in compliance with the Shareholders' prerogatives when designating and appointing their members, respectively consider it advisable that:

- *in the composition of the Board of Directors*

(i) a goal to integrate diverse and complementary managerial and/or professional and/or academic and/or institutional profiles is pursued;

(ii) account is also taken of a balanced presence of independent members and balanced gender representation in compliance with the laws and regulations in force at the time, the Articles of Association and the principles and recommendations of the Corporate Governance Code, as well as of the benefits that may arise from the presence of different age ranges and/or generations and/or seniority (years in office), including in terms of multiple perspectives and varied managerial and professional experiences;

- *in the composition of the Board of Statutory Auditors*

- (i)* a goal to integrate diverse professional and/or academic and/or institutional profiles is pursued, and that, by their characteristics, they can enable optimum discharging of the oversight functions required of the Board of Statutory Auditors;
- (ii)* account is also taken – in addition to possession of the necessary requirements of integrity, professionalism and independence, as well as the limit on the number of offices held, required by the law and the Articles of Association – of the importance of balanced gender representation in compliance with the provisions of law and regulations in force at the time and the Articles of Association, as well as of the benefits that may arise from the presence of different age ranges, including in terms of multiple perspectives and experiences.

De' Longhi's Corporate Bodies take the view that maintaining and consolidating a cooperative, loyal and synergistic climate within the bodies is a priority, in this way each Director and Auditor is able to better express their professionalism and maximise their contribution. In order to perform their duties properly, it is also recommended for directors and auditors to be authentic in their thinking, be able to interact with top management and to handle any conflicts constructively.

4. DIVERSITY CRITERIA AND OBJECTIVES IN THE COMPOSITION OF THE BOARD OF DIRECTORS
